21-Jul-2020

Trevor was extremely professional and efficient in what was an extensive rewire of a period cottage with all the challenges that those entail. In addition, we had underground re-routing of power cables to the garage, upgrading of consumer units and installation of kitchen downlighters. As the project progressed, Trevor often suggested additional sockets and lights which were all added within the original agreed contract pricing. Punctuality and continuity were excellent and everything was made clean and safe at the end of each working day as we needed to remain within the property during the project. Highly recommended.

Trevor was very good at fitting me in at short notice, was friendly and positive. My only disappointment was the cost of what was a five minute or ten minute job - his minimum call out charge. I would not have needed an electrician if I hadn't been misinformed by the fire service in the first place. It misinformed me and I could have done the job myself! I feel like sending the fire service an invoice..... Yes, I'd certainly have him again should a need arise.
