26-May-2020	Second time I've used Barry. This time an elderly, defective and rusty satellite dish up high on the house that I had used to receive foreign stations on Astra 19.2 couldn't be salvaged and needed replacing. A knowledgeable trader who has all the necessary equipment to hand, is helpful, and goes the extra mile. After quickly and efficiently completing the work Barry offered to spend a couple of minutes checking that my other dish - for UK satellite reception - was in best possible alignment, and tweaked it slightly to improve the signal.

19-Sep-2018	Barry is very professional, polite and reliable. He goes the extra mile. We were constantly losing signal and channels on our TV. After finding the fault and giving us the option of having work done now or later, we chose to have work carried out and, rather than coming back at another time, he replaced our aerial (in pretty windy weather) and other parts in the house so we were up and running again immediately. Brilliant. If only all traders were so helpful.
10-Sep-2018	Barry came to look at our aerial that had been leaning to one side that we thought was in need of replacing before it came down in strong winds. Barry inspected the aerial and discovered that the pole could be straightened without needing to replace anything. We were grateful for his honesty as he could have quite easily told us we needed a new aerial and charged us for it. Very knowledgeable and friendly. Thank you.
