20-Apr-2021

I found that Butler & Goddard were an extremely efficient and reliable builders. We never had any problems of any kind and Alan Butler has a very good team of workmen who are also very trustworthy. Unlike many other Builders - he and his work force always tidy up after their busy day and the site was always left clean. He prides himself on his work and the work that his team do. They were always on time and the lovely extension that we are very proud and pleased with kept within schedule. I would recommend his work to anyone and have done so to people walking past and commenting on the extension.

18-Apr-2021

I wouldn't hesitate in recommending Butler and Goddard. They were efficient, hardworking and only took on our build so completed the works in a timely manner. If we were to ever need anymore building work done in the future I would call them first. Alan always took time out for us even after the build was finished if we had any queries.

16-Apr-2021

Alan is a pleasant chap to work with who was prompt and left the site safe and clean each day. The work is of a high standard with no extras at the end of the build. The quote was for the completed job. I have already recommended Alan to a friend.

16-Apr-2021

We were over the moon with the services Butler and Goddard provided. We had a second storey extension added to our property where the level of service and craftsmanship was excellent. They were also very mindful of our young children, which gave us peace of mind. The price was exactly what they had agreed with us and the time scale was also spot on. They guided us through the whole process with them actively involving us in choosing items that would match up with the existing building. Would and do thoroughly recommend them.

13-Apr-2021

We wanted to extend our 1950's bungalow and didn't know where to start. Alan guided us from start to finish in a friendly and professional manner - from architect plans right through to internal fixtures and fittings. The

07-May-2017	<p>job ran incredibly smoothly with the guys always being one step ahead to prevent any delays. The building work is such a high standard and their prices are very fair. We honestly cannot fault them and have already booked them in for a further extension and porch!</p> <p>The company provided an excellent level of customer service. Mike, who was on site throughout, was particularly impressive in both the service he provided and his desire to get things exactly right and as we wanted them. We would have no hesitation in using this company again and would happily recommend them.</p>
17-Mar-2017	<p>Their service exceeded our expectations, they were hard working, honest and professional throughout the build. We would highly recommend them to anyone looking for a building contractor.</p>
21-Dec-2016	<p>Job was a 2 storey rear extension and associated internal work (changing a bedroom into a bathroom etc) - changes made to almost every room in the house. Very impressed - they kept bang on time and budget even when some significant challenges cropped up along the way, and didn't charge us for extras even when they could easily have chosen to do so. Quality of work was spot-on, and several of the neighbours have commented at how quickly and smoothly it was completed compared to similar work they have had done. Couldn't be more pleased - have already personally recommended to several friends. Thanks Alan, John and team!</p>
26-Aug-2015	<p>The building work was a complete internal rebuild with new floor, walls, electrics, plumbing, kitchen and bathroom. All work was very well done and the job was completed ahead of schedule. They were polite and tidy and kept me informed at all stages. They also dealt very well with my last minute design changes and additional requests. Overall, it was a very positive experience.</p>
11-Aug-2015	<p>Very pleased with the extension. Building work and trades all excellent</p>
