This was our first annual service of 2 air-con installations in our offices. Icecap Cooling installed the units 12 months previously. The company offers a first class and very competitive service. Work was completed on time and at all times the work was undertaken in a tidy & efficient manner. Highly recommended.

I've been a customer of Icecap Cooling Ltd for many years after having air conditioning units installed in both my business and home locations. I have no hesitation in recommending Icecap Cooling Ltd as the quality of product, after-sales service and attention to their customers requirements is of the highest of standards. You won't be disappointed!

Recommendation for domestic air conditioning unit. I have recently had fitted a wall mounted air-conditioning unit. I wish to give a reference to Ice cap cooling ltd for their high standard of work and fitting and also price. I do not like wires or trunking on display and they were really good at hiding the electrical and the pipes connected to the system and even going through a great deal of extra work, exposing and re removing brick to access the wall cavity so the workings are completely unseen. The condenser unit and fan box is hidden discreetly as well and out of sight. All mess was well cleared up and rubbish removed as I would have expected, my room was put as they found it. Operation of the unit is simple and remote controlled as well and I could not be happier with the service. Ice cap offer yearly services of the unit as well which I recommend. Satisfied customer Gary Dakin.

I have been a customer of Icecap Cooling since 2008. From the initial installation of the air conditioning through to the annual service, I cannot praise Dave high enough. The work carried out is always to the highest of standards. He is always professional, polite and friendly, and he ensures at the end of each job my

children's nursery is always left clean and tidy. I would highly recommend Dave for any Air-conditioning service.
