Brian saved the day of leaking tap saga. He is really a lovely and friendly gentleman. You can definitely trust him! I am a happy customer. He delivered the job really well. 5 stars all the way! Thanks so much Brian.

31-Aug-2018

Brian came out at short notice to fix a leak from our shower waste. It turned out that the original shower installation had been a real mess, but with my full agreement Brian took the necessary (drastic!) action to ensure that we are not without a bath/shower pending having the main bathroom replaced.

12-Aug-2018

I can't praise Brian highly enough. He dropped everything to come out promptly to my elderly parents as their toilet was leaking. He was unable to complete the job but managed to isolate the problem and returned with the necessary part less than 48 hours later. His work is clean and tidy and he is a very personable man. I would have no hesitation in recommending BJS Plumbing.

15-Feb-2018

I had been trying to find a plumber to mend my dripping shower. The companies I had called all either wanted large call out fees before they would even quote or wanted to sell me a service contract. How refreshing it was to find Bryan. He came round the same evening to have a look and quoted a reasonable cost to repair the shower. I was so pleased with his work that I booked him to replace a faulty radiator and install a new radiator in my hall. Again, the job was completed professionally and in addition, Bryan identified some problems left by a previous plumber who had installed my boiler and helped me to get them resolved by the original company at no further cost. I would thoroughly recommend Bryan....he is reliable, hard working and trustworthy.

23-Dec-2017

After a mishap by a previous plumber who's bosses wouldn't let him continue with the job and fix a leak. I had to find another plumber. Luckily I randomly rang numbers on 'google' and got Brian. It was late afternoon, the end of his working day but he immediately set off to help a very distressed 95 year

25-Feb-2015

old lady. He found the parts needed, returned to complete the job and charged a third of the price quoted by the first company who caused the problem. Brian said he would never leave a vulnerable person without completing the job and he didn't. Genuine guy.

Brian checked and serviced our boiler/heating system and it didn't need any parts or work done to it despite us being told by two other heating engineers that it did. Brian also fitted a new toilet for us. We are about (February 2015) to ask him do some work in our shower room, to service our boiler and to upgrade a couple of radiators. We are asking him back because we have every confidence in him and our boiler has been working efficiently since he serviced it a year ago. His prices are fair and reflect the amount of work involved. Sorry for delay but didn't realise I could leave detailed feedback on the website.
