04-Apr-2019

The car sold was not as described. The car I purchased was advertised and sold with a full service history, and the dealer promised to send the cars service history as soon as possible (via post) following the sale - as this had apparently been left with the previous dealer. Despite several attempts, the dealer lost this in the post and subsequently failed to provide anything constituting a service history for the vehicle. They shouldn't be listed on a trading standards approved website. Buyer beware.

I have bought a few cars from Keith at Kingsway motors! Had amazing service, no pressure, the cream of used cars, with great aftercare, good deals on finance too! I couldn't recommend this garage highly enough, great team of guys work here. I have a cousin coming back from Oz this month, needs a vehicle for sure Kingway motors will be our first port of call! Sure they will have what he wants.

I have just purchased a Renault Scenic for my daughter from Kingsway Motor Company. They were recommended by Warren of W King Motors who has looked after her previous car. The service we received from Westley Waller and his colleague could not be faulted. We were shown everything about the vehicle with no pressure at all. He took us for a test drive and my daughter drove back. It was checked over by Warren and valeted. All the documentation was in order and a 3 month AA warranty was included. This was a very pleasant experience considering that finding a worthwhile inexpensive car can be very difficult. I recommend Kingsway without reservation and will be visiting them when my own, elderly vehicle finally expires.

I purchased a Mazda MX5 From Kingsway Motor Company in March 2016 Just in time for the Summer. I went to Kingsway Motors because of their Buy With Confidence association. I have had nothing but enjoyment out of my car and the service that Kingsway gave me from finding and purchasing the car to the

01-Aug-2016

collection was of a very good standard.

Vehicle purchased had numerous faults over the first few weeks of ownership. These included; Gearbox failure Clutch slipping Cooland errors on dashboard Wind ingress from drivers side window Rear brakes faulty and severely corroded Fan constantly stuck on despite the car not overheating causing noise ingress when driving Electronic handbrake seizing on intermittently requiring restarting the ignition before pulling away Some repairs have been covered by the warranty with me paying part of the labour costs. Some repairs I've had to pay for myself. Poor service from Kingsway refusing to accept they have sold me a faulty vehicle and take responsibility.
