Paul arrived promptly and fitted a new time clock for my immersion heater.. He was very efficient and courteous. Having fitted the new clock he showed me how to set it. I would certainly recommend him and have already arranged for him to return to carry out a periodic check on the wiring at my property.

Mr Hillman provided excellent service and I would certainly use him again. He attended promptly to my request for help. He contacted me to keep me informed of what was happening. I thought his charges for what was an emergency call out were very fair. I would thoroughly recommend him and the Buy with Confidence website.

He was quick, competent, polite, and it was good value for money. One of the jobs he did for us was to change the fuse board and he did a very tidy job. We were confident that he had done a good job for us.
