Luke has just completed a kitchen/ dining room renovation in our home. We are absolutely thrilled with the results. Luke's work has been outstanding and we would highly recommend him to others. Luke is extremely hard working and innovate, always finding solutions where unexpected issues crop up. He is a very hard worker and was considerate of our families needs whilst completing the project. An extra bonus is how personable Luke is, a genuinely great person to have around. We couldn't be more pleased.

We've had Luke complete a number of works in our house over the years including extending our kitchen into the garage, replacing all our bathrooms and building a garden room/home office. Every piece of work has been done to a high standard. Luke works in a very professional way and ensures everything is clean and tidy at the end of the day. He has managed the entire project discussing all elements with us ensuring he sources everything needed but also fitting things we want (eg specific bathroom suites) that we sourced. He constantly checks in to ensure everything is being completed as we expect and explain next steps. He and all he works with are also very friendly making for a good atmosphere as they work in your home.

Having been messed around by a well known commercial kitchen company, L A Price stepped in and under awkward circumstances completed various and difficult sections of the work to a very high standard. Luke and his team were always most polite, efficient and extremely helpful nothing was to much trouble enabling us to rest assured in the final completion of all that was required to finish the task. Always very prompt Always calling back when needed Always polite Criteria others could well take note of. We look forward to working with them in the new year
