21-Jun-2019	not happy with car we brought have had number of problems and they dont seem to be borhered only had car just over 2 months as cost me 600 pounds so far now water pump gone will be getting advice about what i can do. Trader reply Hi Simon Thank you for your review. With our agreement, and for your convenience, you took your car to a local dealer for work on the oil cooler and we provided you with a courtesy car for the period, to ensure that you were not without transport during the repair work. You advised us that, although the work was covered by the RAC warranty we provided, you did not want to deal with the RAC yourself, so we agreed that we would deal with this for you, if you provided us with the invoice for the repair as proof of the issue and the cost of the work needed. To date you have not provided us with any documentation, so we have not been able to claim the cost back for you from the RAC. If you can get these for me I am still more than happy to speak to the RAC warranty department on your behalf. Regards Kevin
