Very professional and helpful. Steve ensured we had exactly the right type of shutter that we needed, discussing pros and cons of the different options. Thanks!

01-Sep-2019

We contacted Steve on recommendation from some friends, and are more than happy to pass on our own recommendation. He went out of his way to help us choose the right shutters and explained everything clearly. He took great care in measuring up, and the install was a perfect fit. Our shutters even arrived ahead of schedule. Our shutters have transformed our living room and we wouldn't hesitate to return to Steve in future. Highly recommended.

Steve was friendly and efficient throughout our dealings. We are very pleased with our new shutters -

13-Apr-2019	<p>they have completely transformed the living room. We can happily recommend him to anyone looking to have shutters installed.</p> <p>Steve was polite and courteous and extremely thorough. I'm so pleased with my shutters! Would absolutely recommend Silverwood to anyone who is looking to have shutters fitted.</p>
12-Jan-2019	<p>We are delighted with the service we received from Steve. From the day he arrived to measure up and give us the quote for shutter installation to the actual fitting date we were impressed with the professionalism of this company. Steve discussed with us all the various options for these shutters and gave good advice. We agreed on a fitting date and the shutters arrived in good time and were fitted on the agreed date. They were fitted really well and we are so pleased with them. Steve arrived promptly every day and caused no disruption when fitting and always at the end of each day he cleared up thoroughly before he left. So we would certainly recommend Steve and Silverwood Shutters Ltd to others as reliable, trustworthy, providing excellent service and good value for money.</p>

30-Oct-2018	<p>Steve at Silverwood Shutters delivered the exact vision I had for my shutters: the product itself is flawless and the fitting of the product was impeccable. This was certainly not down to luck. Steve spent over three hours in my home, going through the multiple options about framing, number of panels, size of slats, colour etc etc and measuring up each individual window (despite me telling him they were all the same size) all before I placed my order (or had made any financial commitment to him). Steve is genuinely passionate about his product and cares greatly that you like your shutters as much as he does! He is very friendly and easy to have in your home over the fitting days - he was lovely to my toddler and two dogs (who were all eager for his attention!) Fantastic company.</p>
02-Oct-2018	<p>I absolutely love my new shutters!!! Steve was friendly yet professional. Really helpful and informative. The shutters look fantastic and really finish off my home. I cannot recommend enough. Thanks for a great job.</p>

15-Jan-2018	<p>Steve at Silverwood Shutters was the ideal person to do the job of installing our shutters. From start to finish he was friendly, courteous and professional. But more than that, he is genuine. The fact that the job was done to a very high standard, flawless in fact, was just a bonus. We used Silverwood Shutters more than once and were hugely impressed with the job done on both occasions. Our house now looks great and is far better insulated for warmer winters and cooler summers. We recommend getting shutters and will once again use Silverwood Shutters if we move house in the future. My wife and I couldn't imagine living without them now. 	<p>throughout the day. The shutters are perfect and the standard of work exemplary. 29-Aug-2015	<p>Steve provided an excellent service, and was very personable when he fitted the shutters- even after a 15 hour day of fitting our shutters onto our rather old and wonky bay windows, he remained cheerful and was very thorough and diligent in making sure they fit perfectly and looked great. We're really pleased with them now and are very glad we took the plunge. The only drawback (which was fairly small) was the long wait between ordering and fitting, as the shutters needed to be made overseas.</p>
