Recommended to us by a builder. Jez designed and fitted our kitchen to an extremely high standard. Attention to detail and knowledge of the product was second to none. The whole room was gutted, all services and wiring replaced replastered and refinished. Fairly long wait from design to start of project, but I guess the old saying stands " If you want a good job, find a busy man"! Highly recommended.

Great service from the initial quote to finished installation offering great advice and guidance along the way from both a design perspective and product options. Jez's workmanship and attention to detail are second to none ensuring a first-rate install. I would fully recommend him.

Jeramie did a fantastic job on our kitchen which was a complete rip out and start from scratch. His attention to detail is very particular. He managed the whole project including taking away all the rubbish. We got in contact with Paragon by recommendation and wouldn't hesitate to vouch for them. Top class and very professional company.
