Outstanding landscaping undertaken by Paul Godfrey

	<p>Company. The levels of the original patio area provided a challenge that were met with enthusiasm. The end result is a beautifully even patio with the different lawn areas being linked by way of a step and ramp adding a lovely feature. The old deteriorating stone wall has been replaced by a single skin stone wall that compliments the new stone slabs. In addition a brick planter was replaced with timber railway sleepers and trellis work undertaken to support climbers and provide screening. Excellent work all conducted in a helpful, polite, professional manner, showing great knowledge with super attention to detail and at all times the site left clean and tidy.</p>
