03-Mar-2017	I have a couple of fields and a few lawns. During the past year all appeared to have been taken over by moles. Large mounds of soil and stone had been raised to the surface by moles - the lawns and fields were a mess, the situation had been on going on for a year, it was grim and getting worse. I contacted Terry Walker of Pest Control, although he was very busy, he appears to work long hours and managed to fit me in the following week. My payment covered three visits. Terry dealt with the problem, all moles were removed. I have waited one month before completing this form to ensure the problem had been dealt with fully. All moles have gone, all mole hills have gone, my fields are back to normal and lawns recovering. Terry is a very

	professional person, a great personality, he tells you what he will do, does it and leaves you feeling most grateful. If you have moles and wish them removed, Terry is your man. I certainly would contact him immediately should I ever get moles again. I therefore have no hesitation in recommending Terry Walker of Pest Control Services.
