Excellent service re repair of roof tiles. Photo provided of damage. Scaffolding in place quickly and work carried out efficiently. Scaffolding dismantled within agreed time scale with little mess on completion of work. No leaks since. No hesitation in recommending to my daughter (part funded by my insurance).

I first used Avon Builders when searching for a reliable tradesman to sort out my longstanding problem of a leaking porch. I was delighted with the result and asked at the same time if he could recommend anyone to re- do my patio. Paul Wootton said he could do this and so within a matter of less than 2 months, my old patio was taken up and replaced with new slabs. At last I found a tradesman who I have confidence in and would not hesitate to use again.

I wanted an extension on the back of my house for a new kitchen, and the old kitchen converted to a dining room. Paul visited and we discussed options. As I didn't have a formal plan he recommended a reliable architect. Once the subsequent plan received planning permission, I got in touch with Paul and he visited again. He worked out a firm price for Materials and Labour and sent me a written quote. The building work was conducted without any problems. I was very satisfied with the quality.
