| 23-Feb-2023 | Our double glazing and doors were so drafty and ill fitting that in windy weather we could see curtains and blinds moving. We were so fed up with them that we started to get quotes for full replacement. This would have involved major upheaval, building works & redecoration and thousands of pounds of expenditure. We tried Vince, originally as stop gap measure, to see what he could do. A few days work, new parts and a lot of adjustments later and for a tiny fraction of the cost, we have a draught proofed, quieter and much warmer |

	home. He even showed us how to maintain the windows and doors and gave advice on how to clean the frames up so that they now look and work, good as new. Fantastic service from an honest, friendly, knowledgeable and extremely customer service focused tradesman.
