02-May-2019	I had broken my Toyota ignition, I was recommended to contact lockfix24 by a friend and to ask for Kenny! Kenny's knowledge of my vehicle system was very encouraging so I booked him in to get me mobile again. The service I received from Lockfit24 was outstanding from start to finish, my car was running in next to no time and even the central locking was working after which hasn't worked for ages! I even got a spare key. The cost was far less than the local dealer with service second to none..! Would I recommend Kenny and lockfix24? Without a doubt 10/10.

06-Aug-2018	Kenny came to my address to replace a non-functioning key for an old Mercedes. He gave me a price and stuck to it even though the job turned out to be much more involved. He took old key away to try to get code from it, then had to come back and remove ignition unit, took that away and got codes from it to programme new keys - couldn't get new keys to register in ignition and said he wouldn't charge if keys didn't work but once ignition unit was replaced in car both new keys worked perfectly. It was clear that Kenny was determined to do whatever it took to get the problem solved and he was happy to invest a lot of time - seeing it as an opportunity to learn more about the mysteries of Mercedes ignition systems. Kenny was thoroughly professional, friendly and helpful - and got the job done!
