At F R O N T we manage circa 200 residential properties including block management between our Little Clacton base and along the A12 corridor as far as Romford. Danny and his team at TTSS now exclusively install and maintain all of our security systems and here are some of the reasons why: * One call for all Access Control , CCTV and Alarms from historic systems to the latest IP. * The TTSS Engineer turns up at the time they have promised to turn up. * The Invoice is invariably for the same amount as the Quote!! Please call me on 01255 44 9800 if you would like a verbal recommendation of TTSS. Scott Pepper Managing Director of F R O N T

Excellent service, explained everything in detail and efficiently fitted a top quality system and all at a very competitive price. Well done lads couldn't be more satisfied.

26-Apr-2016

Outstanding Service. The surveying engineer was very knowledgeable. The written quotation was emailed to me in a very timely manor. All questions and concerns were answered with the utmost in-depth answers (in plain english). Extremely neat, tidy and polite workforce (I had 4 operatives at my property). The systems (intruder, cctv and automatic gates) were installed and demonstrated so well, I was left with absolutely no questions to ask them! The systems supplied are so simple to use that I am confident I wont get it wrong! (I'm not good with technology). I cannot speak highly enough of this company and i'm so glad I appointed them to carry out my work.
