24-Aug-2017	Very helpful after my flat roof sprung a leak. Quote provided, accepted following research into replacing felt with torch felt or EPDM. Two days later a tarpaulin supplied to keep further damage internally to the minimum. 5 days later EPDM Firestone rubber roof fitted in three hours due to previous felt roof not being stuck down. As far as I am aware it was correctly fitted with mechanical fixings. Guarantee provided - and the debris cleared away. Can not fault installation or customer service.
