Excellent service and good value for money. I always use this website and this company, like the others I've used from this site, were brilliant. I telephoned at 11am on Saturday morning to say my outside drain was blocked and asked if they could help. They gave me a price for unblocking the drain on the telephone and said they would be with us at 3pm. They were exactly on time, explained what they would do, completed the job efficiently and invoiced us for exactly the amount they said they would. I had 'googled' the price for unblocking drains so I would have a guide price before I contacted them so I knew 'about' how much it would cost, and this firm was below that price. Thank you Freeflow Drain Services for a job really well done.

Thrilled to bits that I contacted C & S Freeflow Drain Services. Both mine and my neighbours drains were blocked. They said they could arrive the same day and they came on time, as promised, they did the job spectacularly well and paid a very very reasonable price - I was expecting it to cost a lot more than it did. Having exhausted all other means to remedy the problem myself - I am glad that they managed to rectify the problem within a short space of time.
