| 26-Feb-2019 | Mad Dog Developers helped us right from the start with their great vision & ideas to achieve a beautiful result. Our job was not one for the faint hearted & involved a lot of structural change as well as cosmetic. Happy to supply pictures or answer questions if anyone would like to see the work completed. |
| 21-Feb-2019 | Efficient, tidy and very pleasant, kept in contact . Would use again. |
| 17-Feb-2019 | For Insurance work carried out to the property. The work was complete fully satisfactory and communication between me and the work force was completed with no problem whatsoever |
| 15-Feb-2019 | Sadly I can not comment on the service provided by this company since they have yet to supply me with a quote after visiting more than 2 weeks ago. This was a waste of my time. I was forced to give 1 star since the |

site wont allow me zero or Not Applicable. Mad Dog Developers response: We are always happy to have an initial discussion over the phone and to visit a customer to provide a rough quotation free of charge. These are not contractually binding to either party but allow the customer time to consider whether they wish to proceed or not before committing to a detailed quote. Timeframes & financial expectations also need to be considered to avoid unnecessary expectations. In this case it became apparent that the customer was not aware of the different types of quotations contractors provide, the time needed to prepare one and the cost implications involved .
