19-Apr-2018

SES installed / moved light fittings in March 2018.

19-Apr-2018

Fuse box renewal Oct 2017. Electric system fault find, tidying of wiring in sockets and replacement of socket face plates Feb 2018.

19-Apr-2018

SES were subcontracted by our general builder to provide the electrics for an extension in summer 2016. This involved outdoor and indoor lighting, power shower, powering kitchen appliances and lighting, plus power points in 4 new rooms. We were very impressed with the standard of work and the professionalism and friendliness, but more specifically the great advice they gave while planning the work, that we asked them back in March 2018 to fit new exterior security lights, repair bathroom downlighters, and move bedside light fittings, which they did excellently at a very reasonable price. We have also asked them to come back soon for some further work.

19-Apr-2018

New consumer units / electrical boards.

19-Apr-2018

Made safe electrical supply, after house had been flooded. Hew was quick and efficient, value for money and also explained what happened and the next step required in an easy to understand manner. Once house has dried out, I will be asking Stuart to return to repair a few electrical issues.
