05-Sep-2018	In a rush to get out I locked myself out leaving a key on the inside of the door.. I called another less reputable locksmith who was cheaper but insisted I had to have the lock drilled out?! I called Shane who was professional from the very start, he arrived quickly and explained the options, I liked that he checked for ID from me before he gained entry to the house and he displayed his ID all of the time. He got straight to work and opened the door in less than five min (no drilling locks). He ensured that the door worked correctly before he left. First class service from a genuine professional locksmith, yes it was more money than the first one but worth every penny for the service received. Thanks

23-Mar-2018	Good services
23-Mar-2018	I found the service to attend my property for a full security survey was carried out in a very efficient way and the advice given was most comprehensive. I instructed Mr Hales to carry out his recommendations to secure my property to a good standard, which he completed in a very tidy and efficient manner. He upgraded my existing locks to conform with British Standards and to the requirements of my insurers, as well as fitting additional locks as needed. The pricing was very competitive with other quotes I had received and his final bill was very reasonable. I would have no compunction in recommending Hales Locks to anyone.
23-Mar-2018	It was a pleasure doing business with Shane Hales and I would certainly use this company again.
