21-Mar-2019
19-Feb-2019 Very professional
05-Feb-2019
04-Feb-2019 Very thorough report carried out with great communication throughout the process, would highly recommend Alan and will use again.
21-Jan-2019 Honest, professional, knowledgeable and polite. Alan came to diagnose some damp issues in our property. He gave us great advice and left us feeling confident about how to proceed next. We didn't need his services this time but he has become our go-to professional for damp issues.
14-Jan-2019 Great Service and very knowledgeable. Alan provides an exemplary service. I suspected damp but was told it was only condensation. A full report was provided with ways to avoid future problems and all at no charge. Can not recommend this company enough!
04-Dec-2018 We were extremely pleased with the work. Alan was

23-Nov-2018	efficient, tidy and skilful. An excellent job. Repair of damp damage on two walls due to lack of damp proofing. Network cable routing within area. Wall repair and re-plastering. Removal of old material.
23-Nov-2018	Alan from Hampshire Building Preservation Ltd came round to advise me on a small damp problem in a property I have tenants in. The two areas of concern were the front bay window and the floor under the washing machine. Firstly Alan himself was very presentable. He took readings and measurements and explained in layman terms the issues that were causing the dampness. After I received a reasonable quote I have had him round to fix the flooring and after the was dealt with perfectly, I will be getting them back to deal with the larger problem of the bay window.
23-Nov-2018	Hampshire Building Preservation Ltd carried out some damp work at the beginning of September 2018 at my house in Southsea. They cut away back to the brickwork, injected a damp course, cleared the cavity & made good the work they did. Mr Patrick came to my address before hand to see what the problem was & suggested the best course of action & gave me a quote for the work to be done. The whole job was done in a professional efficient manner by two friendly & courteous workers.
23-Nov-2018	Rectifying dry rot problem. All done to an excellent standard. I was fully briefed at the beginning of the work with a report and was kept informed as the jobs progressed.
23-Nov-2018	Treatment to hall and dining room walls for rising damp, re-plastered walls.
