| 10-Sep-2021 | Efficient, reliable, polite and clean. Thankyou Hampshire Building for the excellent works on two of our properties. |
| 30-Aug-2021 | Alan gave extremely good, useful service. He answered all questions and we now feel empowered to make changes to improve our condensation problem. |
| 29-Jul-2021 | Extremely happy with the service that Alan provided from initial quote, to answering questions to the actual carrying out of the work. Alan was very tidy and cleared all the rubbish away. His quote was fair and reasonable - we'd been quoted a very substantial sum by another company. Alan was very courteous, trustworthy and prompt. He worked very hard during the hot weather completing the job when he said he would. Very pleased to recommend him and his company. |
| 14-Jul-2021 | Excellent communication, quality and professionalism. |
| 08-Jul-2021 | Excellent service and advice. It would have been |

04-Jul-2021	helpful if they had a plumber who worked with them as I had to arrange this independently. Highly recommend - helpful, knowledgeable, reliable and good workmanship

29-May-2021	Excellent service from start to finish, well recommended
28-May-2021	My Southsea mid-terrace downstairs wooden floor had gone bouncy and squeaky in places. Alan installed several new joists/supports and the floor is now solid, and Alan also applied woodworm prevention spray as there was evidence of woodworms. This has 10 year guarantee. Alan explained what he was doing each step of the way. The floor is solid now and I'm very happy. Thanks!
06-May-2021	Alan is exceptional and what he does and he explains everything in an easy to understand format, would highly recommended
30-Apr-2021	Knowledgeable, friendly, helpful, honest, and with a high standard of work. Couldn't recommend Alan enough.
28-Apr-2021	Excellent service from start to finish
15-Mar-2021	This was for inspection of Damp - 1st Quote by a different company- said there was rising damp and quoted for that 2nd quote -Hampshire-their quote was for poor condensation in the house and he listed all the items needed to rectify the problem - all the corrective actions we can do ourselves - Hampshire did not do any work but we are well pleased with the quote that it was not a big job and an honest quote
30-Jan-2021	Excellent workmanship, explained what he was doing as he went, and tried hard to minimise the mess of removing plaster from walls. Highly recommended. I would use again without hesitation.
24-Jan-2021	
22-Jan-2021	I needed a small job done: to brick up an old flue. Alan provided a quote very quickly, fixed a date within a week, and answered all my questions comprehensively. On the day itself, he was careful to check if I was happy with the colour of the bricks before getting on with the job. Now the wall looks great.
11-Jan-2021	Very Professional service carried out.
10-Jan-2021	Very knowledgeable and professional service. Damp treatment carried out as quoted and to a very high standard.
05-Jan-2021	Mr Patrick carried out this work together with several other areas of similar work on the property with skill, care and promptness. The building concerned is a new extension to a Listed Building having necessarily complex links and abutments. Mr Patrick co-operated well with the Architect and the site manger to ensure the most appropriate damp control solution at each affected point. I would not hesitate to engage Mr Patrick for future work in equally demanding

	conditions.

01-Dec-2020	Our front room needed a new damp-course around the bay and a couple of walls, which Alan finished with skimming all the way up to the picture rails. The work was carried out with very little disruption and everything was kept so clean and tidy. The finish is beautiful. The property also required all of it's wall-ties to be replaced, which again has all been sorted without any issue. The pointing has been filled in so well and there was nothing that we needed to clean up afterwards. Alan really knows his stuff and has been great from start to end. His advice has been so helpful and considered, and his level of workmanship and courtesy is brilliant too. It definitely felt as though the house was in safe hands!
18-Nov-2020	Hampshire Building Preservation LTD were able to come out to my property the very next day and arrived on time for the wall tie inspection. When they arrived they were very informative, taking the time to explain the possible issues and why these would be causing problems. When it came to the inspection, they drilled into the wall to identify if there was an issue and talked me through what they found. I found them to be very informative and helpful, I would definitely use them again and would not hesitate to recommend them to friends and family.
