Comments: Hi, my names Alan Marshal the current National Wedding DJ of the Year 2019 & I know great wedding entertainment all starts with asking the right questions and listening to the answers!

Understanding, through discussion, what my couples see as the most important elements of their wedding day and working with them to create the wedding day of their dreams.

I consider myself to be a fount of knowledge and expertise around UK weddings and offer this freely to my clients so they can make informed decisions.

On the day, I will do everything I can to ensure my couple and their guests have a truly memorable experience to treasure. Like a film director, I create flow, using natural transitions, to bring different parts of the day together.

Attention to detail - I always put my couples' needs first. Everything I do is in their best interest. For me, it's about more than just music and dancing. During a wedding, as the DJ and host, I can create and highlight magical moments that tap into the emotion of the day, that will be remembered for years to come. It's not and never is about me, ever!

However, for me, wanting the best for my couples is not enough. I have to be the best for them and to that end, I undergo annual training through workshops here in the UK and in America. My mentors and coaches help me to improve not only my performance skills but the service I supply for all of my couples.

My drive and passion are to expand what is possible in wedding entertainment beyond the accepted norm. Better than the "average" people have seen at weddings before, but always putting the couples' interests first. An opportunity to create an experience for them and their guests that really matters.

I love everything about wedding entertainment - prepping playlists; crafting introductions and scripts; rehearsing what I'm going to say and what I'm going to play. I even love the setup and striking of equipment early in the morning or late at night and running a successful business.

Excellent service, Alan was there for us every step of the way in planning our wedding and was a key part of our day. On the day we had a fantastic time knowing that Alan had everything taken care of.

Alan was our master of ceremonies for the whole day and evening of our wedding. He provided assistance throughout the day, to us and our guests/other suppliers, was the Master of Ceremonies during our speeches/entrances and the DJ in the evening.

Excellent service! Would highly recommend Alan for his professional approach and capabilities.

the service we received before and on the day was outstanding from start to finish. Alan could not do enough for us and he helped with ideas and support throughout the preparations for our big day and took away the stress of the actual day to allow us to both enjoy the day without thinking of the small things that needed doing throughout the day and evening.

Alan was the DJ and Master of Ceremonies for our daughter's wedding in August 2016, he went above and beyond to ensure that the bride and groom, our families and guests had the most wonderful time and if there were any hitches he sorted it without bothering us. Alan was also the DJ and Master of Ceremonies for our eldest daughter's wedding in November 2018 and once again he ensured everything ran smoothly and to time. He even managed to add in some extra bits that we asked for two days before the event, the guests at both weddings still comment on how wonderful Alan was.

The service provided by Alan was excellent. We'd met him a couple of times before the big day and liaised over email to ensure all details were correct.

Alan was exceptional in terms of the help and guidance given before and during the day. It would most certainly not have run as well without his help and we are forever thankful to him for sorting all the little details and any glitches that arose.
