Leon and the team were very accommodating because circumstances with both our buyer and seller meant that we had to keep shifting moving dates. Tim, Mikey and Ed were courteous, quick, efficient and very professional. They have a policy where anything that is taken apart is put back together again at the other end, which meant we weren't sleeping on the floor on our first night in our new house. They even offered to move bits of furniture around, after they'd moved everything in. The 'moving in box' was a nice touch. It included washing up liquid, bin liners, tea, coffee and even some toilet roll, amongst other useful items. Small gestures like this make the moving in process that little bit easier. Thank you Black Hole!

which is great. The storage units are clean, well lit, dry and there are trollies to help us move heavier items. With our moves, the men have been helpful, careful; friendly and efficient arriving on time and putting things exactly where we want them. Very good value and a great business to use.

We looked for a small local firm and were pleased we found Black Hole Storage and Removals LTD. The move went smoothly; the staff were helpful and flexible. I appreciated how responsive they were when I emailed or called them on the phone. They packed our belongings and due to unforeseen circumstances we had to store our possessions, but when the time came to move they were efficient and no damage was caused. This company really went the extra mile for us!
