31-Jan-2023	<p>Due to problems with our home alarm system, we needed a local alarm security company to sort out the problems. After reading the glowing reviews from other customers, we had no hesitation in contacting Norman Nordali. Norman visited us promptly and diagnosed that a new keypad and control panel was needed to replace the 26 year old system. He returned a week later and completed the work. He talked us through how to use the various procedures that can be done on our new alarm system, and ensured we were happy and confident how it works. Very impressed with Norman's professionalism and standard of work. Would highly recommend Nordali Security Services to anyone.</p>

13-Mar-2020	<p>Norman Nordali has serviced our alarm for a number of years and just recently installed a new hybrid system, utilising both existing and new components. His advice has always been well-considered, logical and honest, and we have resisted approaches from a number of his competitors. We believe that Nordali SS provides excellent service at a very fair price and can think of no reason why we shan't be seeing Norman here annually for many years to come. Thanks Norman.</p>
09-Mar-2020	<p>Mr Norman Nordali has serviced our alarm system for several years. In addition, he has recently provided us with an upgraded hybrid system which covers additional windows and doors. The system has been adapted for hard of hearing using a strobe light. I can only pass on really good comments about Mr Nordali and the service he provides at a reasonable price. I recommend him without reservation.</p>

12-Jan-2020	<p>Following the retirement of my previous alarm service company I was approached by a few companies. One of whom tried to suggest my system was not suitable and wanted to sell me an upgrade. On the other hand, Nordali Security Services stated that my current alarm system was in good order and more than adequate for my property. In consequence, I chose to go with Nordali because of their honest and professional advice. I have known Norman now for a number of years and in that time he has conducted annual servicing with the highest level of competence and customer care. He is most polite and gives confidence in his approach to ensuring the alarm system is fully maintained at very competitive pricing plus a year's warranty. I can't praise Norman highly enough and can confidently recommend him.</p>

In addition as a lady living alone he gave me some sound advice and tips on how to set a "panic alarm" off if I was concerned about people loitering outside or tampering with my car. He also very kindly put my smoke detector back up with a new battery! Nothing is too much trouble- he's a lovely chap & great tradesman I'm happy to have in my house .</p>
07-Sep-2019	<p>We agree with all the previous reviews. Norman is excellent listening to people's needs and uses his extensive experience in the alarm industry to make the appropriate recommendations. He gives you time to consider the best value options. Norman has his own very high standards, so we can relax with his</p>

installation work. We are very happy with our alarm system as it provides safety and security when we are at home and away, and are pleased with the additional tab for limited area access for the neighbour to feed the cat. Many thanks Norman.

Norman is a professional person, he is trustworthy and efficient. We have known Norman for over 4 years and he services our alarm every 12 months. Norman removed and replaced our alarm this year. The work was completed and there was no mess to tidy up as Norman tidied up as he worked. The new alarm is easy to use and means that we can sit in the house and move around with the doors and windows alarmed. Thank you Norman for an excellent and efficient job.

17-Aug-2019

We have known Norman for a number of years, and he has serviced our alarm for some time now. Our alarm was due for some modernisation and Norman completed the installation in just over a day. I would, without hesitation recommend Norman, his work is to a very high standard, and nothing is too much trouble. He explains the rudiments of the system in layman's terms, and leaves you understanding everything involved. I would highly recommend Norman for all alarm installations and services. Well done and thank you.
