Ross showed excellent professionalism to solve a serious problem of Rats in the loft, he was very good at explaining the options at every stage. Thankfully I now have a rodent free home with all access points secured. Additionally my loft was emptied, insulation removed, loft cleaned and new insulation laid so it is now a save environment to reuse. Hopefully I will never have a need to use F1 Pest Control, but if I do they will be my first contact and I personally recommend them to friends and neighbours.

The rat problem has been resolved and I am happy to recommend F1 Pest control.

31-Jan-2021	I called F1 Pest Control after hours on a weekday after seeing a mouse for the first time in my rented house. They answered the phone promptly, gave me practical solutions to follow and reassured me about the mouse before they visited 48 hours later to lay traps and inspect the extent of the issue. The inspection was done in a professional and covid-safe manner; the owner followed it up two weeks later to remove the traps and assess the work, making suggestions for future improvements to prevent further infestations. I really appreciated all their hard work and the mice have disappeared from my house for the time being!
27-Jan-2021	Our house came complete with carpet moths and several attempts of using 'professional' products reduced their number but never fully eradicated. Then the carpet beetle moved in and my wife said it was time for a better solution. Ross of F1 Pest Control had the answer, and now 3 months later, not a sign of any unwanted activity. They were quick, efficient, polite and tidy, 100% recommendation.

02-Jun-2020	F1 Pest Control got rid of an infestation of rats in the roof of an extension to our house. They arranged for the roof to be repaired and rat proofed and the electric wiring checked and repaired. Finally new insulation was installed in the loft space. The rat nest was discovered in the wall separating our garden from our neighbours property; this was also dealt with successfully.
