11-Mar-2021	<p>First class from start to finish. I live on a new housing estate where the garage door was too narrow for most cars, so on a recommendation from a neighbour I contacted Nortec and a technician came to my house and measured up the project for an electric roller door. Shortly after i received the quote and decided to go ahead with the work, I was warned that due to covid the installation date wait would be longer than usual.</p>

The day of the installation came and two installers arrived and set to work. they were both friendly and efficient. On completion the door operation was explained to me and the paperwork completed. i was assured that in the unlikely event of a problem just i just have to ring. All the staff were friendly and helpful and I would recommend Nortec without reservation.
