Great communication from the start. I told them exactly what I wanted to be done and they did it. This was a professional family team of 3 (Son, dad and best friend) who understood the pressures of going without a boiler in a home with young kids and they strived to get the work done. They carried a complicated job of changing pipe work and made it look easy. I found them very skilful and genuinely nice guys. Would be using them again for sure.

Richwell Gas supplied and fitted a modern condensing

	boiler and we were very pleased with their service. They turned up when expected, cleaned up after themselves and removed all the old equipment. As we were not at home when they finished, they returned to make sure we understood how everything worked. They were brilliant. Would definitely recommend them.
