16-Feb-2023

Various groundwork projects over a number of years, including underpinning, general groundworks for drainage, pathways and patios, curbs and edgings and preparation stone basework for driveway areas, installation of service ducts and trenches, the latest project was carried out in December 2022. Full attendance including supervisor with their own machinery and plant and workmanship carried out to specification to a good standard, all working to project drawings and programme with variations and extra works communicated verbally and costed separately.

We have used south east ground works on numerous occasions over the past five years. They have constructed driveways and patios for us and also hired their machinery to us. South east ground works are very approachable and accommodating and they provided us with a good quality service.

16-Feb-2023

Extended car parking area. More car park bays added at front & back of the building, service provided was

16-Feb-2023

satisfactory & cost was reasonable.

The front drive was levelled and then tarmac with boundaries made of sleeper[s around. We were very impressed with all members of staff we had contact with. They were polite: respectful to our neighbours: accommodated our requests and very professional.

16-Feb-2023

Large patio including retaining walls, site clearance, brickwork, concrete alley skim. Team were excellent, fast and v high quality.
