Comments: Established in 2008, Gold-Traders are a leading national precious metal buyer, who offer customers valuation on their jewellery up-front, with no hidden fees or extra charges.

Instead of offering free postal bags like their competitors, Gold-Traders offer a postal service in which customers send their items in a tracked envelope themselves, allowing them to earn close to the current spot price of gold, significantly more than the 40-60% of the true value offered by companies giving customers free postal bags.

In addition to their postal service, the business operates a secure counter service in Royal Wootton Bassett, Wiltshire, where customers can sell their precious metals in person and receive a same-day payment.

Comments from consumers who have used this trader

- 18-Aug-2022 Due to the nature of the transaction Gold Traders operate a very strict privacy policy. I was the only customer on the premises. Other customers were asked to return after our transaction was complete. This in my opinion is a policy that should be highlighted.
