Due to me selling my house I needed electrical works done quickly, Kieran went out of his way to squeeze me in so i could get the works done in time. He was very professional and came over to talk through my options in regards to the work that needed doing. Kieran sent Karl over the next day to do the work, Karl was very professional, explaining everything that needed doing and what the options were when he found additional items that needed fixing during my EICR. He was conscientious and friendly and did the works to a very good standard. Completely recommend KS, and thanks to Kieran and Karl for their help!!

Ben came on time and worked through all the jobs needed doing quietly and efficiently. There was no mess afterwards (apart from a couple of small screws found on the landing carpet!) But I was very satisfied with the work and won't hesitate to use the firm again or recommend them to friends.

Quick, efficient and friendly service provided in response to an urgent request to connect a cooker. We would happily recommend Kieran and his team to others.

We have used KS electrical services on two occasions recently for domestic repair/replacement jobs and have been very pleased with the level of service. Professional and friendly, good value and very tidy. Would certainly recommend.

Kieran's team fitted our electric charging point for our new car. They were timely, efficient and did a great job. I would highly recommend them to anyone in East Devon. We will hopefully look to have solar panels in the future and love that they have a keen interest in renewable energy. Thanks guys!

Kieran and his team are diligent electricians, who clearly know what they are doing. We have used this team for a complete house renovation and have been back to them for various other jobs. I would highly recommend them and they would always be my first port of call. They are trustworthy with their quoting too, which is very reassuring.
