Great job, swift, tidy and effective. Good service. They took four days to do entire house. Left house tidy and windows closed off each night. Took care of our house while working. Diligent and friendly. No hesitation recommending. Good value. House much warmer and quieter immediately. Absolutely worth doing. .

Daniel and his team have done excellent refurbishment work to our windows which were in a pretty poor state. All communication has been timely, clear and comprehensive. The quality of Green Dan's workmanship is excellent and once the work is completed, all mess is cleared so that the property is left in excellent order. I am so pleased to have found Green Dan; I will be coming back in future whenever window restoration is needed and wouldn't hesitate to recommend Daniel and his team. Thank you so very much. I am very happy with the work.

Dan and his team did a fantastic job for us. They completely renovated all our sash windows (two bays, two stories, plus two other smaller sash windows) the frames of which were in very poor condition, and replaced the sashes with double glazed units. They did this very efficiently and tidily, and were a pleasure to have in the house. It has completely transformed the place. Highly recommended,

Dan and Chris carried out the restoration of two sash windows with the minimum of fuss. The work was completed on time and to the standard we expected. There were a couple of small additional issues but Dan notified us and informed us of the small extra cost.

Dan is very knowledgeable about sash windows and when he came to view mine, instead of trying to sell me new windows/double glazing he actually advised me that I had really nice, original Victoria sash windows which have stood the test of time and would well with restoring rather than replacing. I had one set of windows restored last summer- they were draught proofed and serviced. They were done to such a smart standard and the draught proofing made that room in the flat the warmest, so this summer once I had saved enough I got the other 3 sets of windows restored by Dan and his team. Well worth the money to have such a professional job done- I highly recommend Dan and his team.
