Always very pleased with the work Terry has done for us over many years - putting lights in loft, installing external power socket and pond pump, lights in kitchen, power sockets in kitchen. Very happy to leave him to get on with the work which he does most competently, quickly and with no fuss.

I engaged Terry to replace an aging fuseboard with one compliant with the latest electrical standards ,to fit a complicated new light fitting in my lounge, to check all sockets in the flat and replace where necessary and to investigate and remove redundant wiring. Terry was knowledgeable in all aspects of the job and made several suggestions (such as fitting sockets with USB ports) which I found very useful. Terry is friendly and straightforward to deal with. I am. I am happy with his standard of work and will be putting more work his way
