I contacted Paul to discuss a complete revamp of our electrical system. Paul made a thorough survey of my property and together we made a list of all the improvements and additions to be made. Paul was very patient and explained everything to me. Paul has just completed the work after three and a half weeks. I was worried about how all this work would effect my business but Paul went to great lengths to minimise the mess and disruption, tidying every night and making sure we had power nearly all the way through.

	<p>The neatness of the wiring, sockets and trunking is fantastic, he and Luke were so polite and helpful it has been a pleasure to deal with them, they made a very big job as painless as possible. Thank you Paul for putting your heart into our work and doing a perfect job.</p>

20-Sep-2018	<p>This company is by far one of the best I have dealt with. Paul and his team had the task of re wiring a whole building so that my business was to be up and running within two weeks during a refurbishment. This was no easy task as the building is very old and has its issues but this was not a problem for Paul and his team. They worked hard and long to ensure I was a happy customer, always communicating with me making sure everything was correct. Not only were they efficient but they were professional and the service was excellent. I would recommend Greens Electrical to any business that is in need of work, regardless of the task. Brilliant company and friendly people, very hard to find these days. Absolutely brilliant!!</p>

12-Apr-2018	<p>I've used Paul and his company for various electrical works for a few years now and I wouldn't trust anyone else with it. I am a live abroad landlord and it is essential to me to trust the tradesman and the quality of the work done. Paul has always delivered to exceptionally high standard and I have never had any problems with his work. His communication is great, he always keeps me posted on any issues that crop up as well as regular progress updates. 18-Feb-2018	<p>Paul and his apprentice, Ben gave me excellent service when they replaced my kitchen strip light. Booking was easy and they came next day when they said they would, diagnosed the problem, gave me a clear explanation of why it had failed and choices to resolve the issue. I made my decision and the replacement was obtained, up and working in an hour. I highly recommend Greens Electrical Services and although my job was only small I felt it was given the same value and attention a major undertaking would receive, as a matter of routine great service.</p>

20-Sep-2016	A full electrics check was done for the property. Before the job had even started the the owner of the company (Paul) was very accommodating to ensure a suitable time was possible to carry out the big job despite the very short notice we had given him which was very much appreciated. Two members of the team arrived (Paul and Ian), they were prompt, extremely polite and courtesy from the off and throughout the day. The work was done efficiently and I could really gauge that the two were experienced professionals who had a passion for their craft. They went above and beyond to fix any problem which cropped up in the time available and even were late for subsequent jobs/courses in order to ensure that the job was done properly to the highest standard. On top of this, their work was very tidy and fairly priced. I was enormously impressed by the company and would recommend them to anyone. Highest standard of work and genuinely kind staff, what more can you ask for!
