Nikk's a bit sluggish getting back after first contact, but once you've spoken to him he's top class. He employs quality, friendly staff and we have always been well pleased with the standards they work to.

Excellent service as usual, I've been using climate solutions for more than 10 years for any plumbing matters beyond my DIY skills & will continue to do so, 10/10.

SUPERB...customer service, communication and competitively priced. Came to do a service, through my house insurance. Called to make appt. Called to confirm. Arrived on time, and was totally impressed with the way the engineer carried out the work. Clean tidy and thorough! Did not leave until he was sure it had all been covered. Would not hesitate to recommend or use again. Nikk is on hand to discuss anything required. And Spence is an excellent engineer! Many thanks guys

always a good recommendation.

Climate solutions are very professional, reliable and highly skilled. They have worked on my behalf for several years for some major clients and many end user customers, hence my address is not local, the work Climate Solutions carry out for our customers in the local area is first rate.
