What a fantastic family business. Paul met us to show us around the car, took us for a test drive and went all through the paperwork, service history and buying process with us. He made sure that every mechanical detail of the car was seen to and when we collected it, the car had, had a full service, new MOT and a full valet. Looby kept in touch by email and phone and even worked late enabling us to collect the vehicle late on a Friday night. An absolutely brilliant company, fronted by two people who actually care about their customers and the vehicles they are supplying. A pleasure to do business with and we would have no hesitation in recommending them to anyone looking for a new car.

19-Jan-2017	Took my car in for a major service, plus new discs and pads for the rear brakes. I received excellent service in all aspects. At the booking in stage I was given a very precise idea of how much the work would cost, and what was involved. When I collected the car Paul went through the work that had been completed, and explaining the "advisories" for future reference. The price was completely on target (no nasty surprises here!) If extra work needs doing you will be phoned and advised, before anything not agreed beforehand is carried out. I wholeheartedly recommend this dedicated family business, where nothing is too much trouble and excellence comes as standard!
