Excellent service from start to finish. Good workmen, very polite, good follow up when work completed.

These guys are amazing. I thoroughly recommend them and if I needed any further work doing, that they do, I would use them. I have had a new flat roof, guttering, fascia's, soffits and cladding. Their quote was competitive. They arrived on time for appointments, paperwork was thorough, they did a fantastic job - no dodging when they came to snags, thorough and neat. Perfect. At the end they cleaned up - my driveway etc looked better than when they arrived it was that clean! Scaffolding arrived on Saturday, they started work on Monday (when stated) and the skip was delivered the same day and then collected the day they finished, along with part of the scaffolding. The rest of the scaffolding was collected the next day (we needed a lot). Perfect. All the lads were fab. Pleasant and hard workers. They explained what they were doing and did a walk around at the end to make sure I was happy with everything before sign off. Just fabulous. I will be giving their details to anyone who asks! Thank you guys (and sorry for the other jobs they had after which were delayed due to my nightmare house!).

Replacement of a flat roof was carried out promptly and with care. Service was excellent. Due to a leak the replacement needed to be done promptly. Thermal Roof did the job well.

The service was way beyond my expectations. Did a really professional job and the workmen were very helpful. I was told each step of the way how the work was progressing. I cannot thank Wayne enough for his patience in waiting for this job to be finally authorised by us. When ringing the office the lady who answered the phone was very friendly and helped with any questions I had. The work site was left tidy and every

Thank you They produced a replacement flat roof for me that I thought was "a work of art" They told me I would notice a difference in the warmth of the rooms below the roof. I was skeptical but they were absolutely right, their work is already saving money in heating bills.
15-Apr-2015	excellent, professional service throughout..
01-Apr-2015	EPDM flat roof installed with new guttering and internal wooden boards replaced.
