A truly professional job. James arrived on the promised date, was here everyday, supervising, organising & working hard. His attention to detail & the quality of work was second to none. I would recommend this firm without hesitation

07-Mar-2019

James completed a room extension from start to finish. This is the 3rd job he has done for us on the house. Very good service, very clean and tidy. Excellent job done as always. Will be using again in the future

13-Oct-2018

James has again surpassed himself with his eye for doing the job required. In this case, what some might say, an easy one. I beg to differ, in that while I knew what had to be done James saw the route required through the maze of plastic and copper piping already in the cramped space under our sink. The job was an outside tap, but it took James a very patient 2 hours to make the detours round other pipes and give us exactly what we wanted. Now the old one connected to the "soft water" supply is replaced, and not only can we water the garden safely - but we can now jet wash the cars!! Our hero and thanks again, James.

This is the 2nd job James has done for us. Again his work was meticulously carried out, on time, cost as quoted. In fact he even came to us earlier than quoted as another job stalled -not his fault! When finished, the available space below the new sink had doubled in size. I had the pleasure of watching his approach to the job, badly done for the previous owner. We would both

14-Jul-2017	<p>recommend James to anyone looking for good plumbing work.</p> <p>We had a garage conversion and downstairs cloakroom installed. Work was carried out on schedule and we were kept updated. A first class job was done would not hesitate to recommend J.W. Services.</p>
13-May-2017	<p>The sandstone paving slabs around the house and the patio had looked a mess after some "cowboys" had jet-washed them to such an extent that most of the cement pointing had come out between the slabs. In Nov 2016 James jet-washed and completely repointed, and reseated where necessary, all the slabs and then sealed them. I couldn't believe what a wonderful job he did. May 2017 he returned to repoint the bricks in part of the back wall of my house. Again, an excellent job. I would have no hesitation in recommending James for any job. He is such a reliable, punctual and polite person and, most importantly, a perfectionist in his work. As soon as you accept his quotation he will give you a date for the work but the fact that this may be weeks or months later, proves just how popular he is.</p>
