Couldn't be more pleased with the new patio Chris and Noel did for us. They were always on time, worked really hard and gave us exactly what we wanted. Would definitely use them again and without doubt would recommend them 100%.

14-Apr-2023

Chris and Noel were recommended by someone in the same road as us, so we'd already seen their work and how good it was. We had our fairly decent sized drive block paved and also had the crossover widened at the same time. Excellent work carried out. Chris and Noel are clearly very skilled, knowledgeable and experienced. Everything went well (apart from the weather!!). We are really pleased with our new drive and would recommend them to anyone. Thank you!

Chris is a craftsman who understood what we were trying to achieve and then made suggestions to improve the end result. It was done without pressure and at a minimal additional cost. Because of an initial materials shortage the time between booking and work starting was long, but that's not Chris's fault. The standard of work by Chris and Noel is excellent. The new, raised hardstanding and the garden have been left neat and tidy, and we are having complimentary remarks already - the day after the work finished. It's a real pleasure to be able to recommend with no reservations a local, good, friendly and totally competent business. We do so with thanks.

Chris and Noel - so good we used them twice. Yet another excellent piece of work combining landscaping and paving. Very professional and flexible to changes to the plan as the work progressed. They also added some very useful input to the original plan which improved the end result. Thoroughly recommended and would use again.

16-Sep-2018	Chris dismantled an old conservatory, the greenhouse, and an old shed, and removed a lot of bricks and slabs I had gathered over the years. He cleared and levelled the rear garden and front driveway, prior to laying a large rear patio, sun terrace and concrete base for a cabin. The garden and frontage have been transformed, it is brilliant.
