20-Jan-2017	The person who took my initial call understood my requirements and decided that a site visit would be required in order to accurately assess the work to be done. The electrician who came to my home arrived on time and quickly evaluated what needed to be done. I received an e-mail quotation the next day with a follow-up phone call to check that it met my requirements. Having accepted the quote, the work was scheduled to meet my availability. Between acceptance and start of work, my requirements changed and this was accommodated without difficulty, even when I changed them again. The work was completed to my complete satisfaction and the invoice and certificate e-mailed at the end of the week. I would have no hesitation in recommending this company.

26-Oct-2015	I am very pleased that I chose Bonnici (from out of four who came to quote). At all times I had good advice and

	<p>different options were discussed with bang up to date knowledge and expertise on their part. The work (installation of a latest edition consumer-unit, proper bonding to water main, removal of a hugely faulty outside light circuit etc etc, so moderately invasive) was accomplished with only slight disruption, great efficiency and friendly courtesy. They arrived when they said they would, worked hard and finished when they said they would. Highly recommend.</p>
