James was completely reliable and provided an excellent service with brilliant results. He was methodical and thorough and willing to go the extra mile in getting the right results for us. Having been let down by other tradesmen before and also having sub standard work completed previously by others, we were relieved and happy to find someone who at last did the job properly and well. James is not the cheapest decorator out there, but absolutely worth it.

It's rare to meet a professional who has such attention to detail and service. A remarkable eye for the right result and standards of quality built up over years of experience. All wrapped up in a personal approach that is friendly yet absolutely focused on getting to the best results for your investment. James never let us down from first contact to final tidying up! All the time he asked the right questions at the right time - even as we changed our minds about the usual things that customers do! Just consummate! I am an absolute stickler for detail and on his final day he left not one need for any snagging whatsoever. A true professional and master of his craft. I would recommend James to her Majesty let alone my friends!

James did an exemplary job for us when he painted most of the ground floor and the stairs in our house. He was always punctual, prepared every surface meticulously, and worked hard all day at the end of which he tidied everything away and cleaned up thoroughly. He was a pleasure to have in the house, and we were able to leave him to look after things in our absence with every confidence. We would have him again without question and have already recommended him to some friends.
