Time keeping excellent, a polite professional, his skill was obvious, and his advice on the type of work we required was invaluable.....we will definitely be calling him back to help with any future requirements, and pass his details to friends or family who are looking for a reliable confident electrician.

26-Nov-2020

First class job, quick and efficient. Have already recommended Jon to a friend. Cannot fault his work

09-Nov-2020

Jon carried out another excellent job carefully and efficiently. He explained exactly what he had done and how equipment worked. Everything was carried out in a very friendly manner. Would certainly recommend his business and we would use again.

27-Oct-2020

Cannot fault the level of work and customer service received. I'd have no hesitation in contacting Jon again for any further electrical work required and neither would I hesitate to recommend him to others. .

16-Oct-2020

Excellent service - very professional, and the outcome was just what i wanted.

02-Oct-2020

Highly impressed with JPW services, he did a test of all our electrics firstly and then formulated a plan in order to correct the mistakes that a non professional had created in the past causing us to be having regularly losses of power. As it turned out we had poorly connected wires , no earth wiring in places with metal switches and too many units on one circuit so needed a new fuse box and rewiring. All now resolved and we can feel safe in our own home.

12-Sep-2020

First class service - Jon turned up on time, was friendly and polite, and gave a clear estimate of cost. He did an excellent job and left everything clean and tidy. Highly recommended.

24-Aug-2020

The work was carried out extremely efficiently with careful consideration done into finding the best course of action. All work was neat, and made good where necessary. And all the rooms were thoroughly tidied

04-Aug-2020	afterwards. JPW was recommended to us and we would recommend JPW to others without hesitation. As always Jon arrived spot on time carried out the job, demonstrated the work and left having cleaned the area. We have used JPW Electrical services many times over the years and if he is too busy to do our work we would willingly wait rather than employ an unknown.

16-Jun-2020	Excellent Service
25-Mar-2020	Excellent work. Quick, precise and efficient. Dust sheets used, carpet removed for access, replaced & everything left very tidy, including vacuum cleaning afterwards! I would use this service again & recommend to others.
23-Mar-2020	Recommended by our neighbour. Friendly, efficient service, with rapid response to emails, phone calls, etc. Competitive quote for high quality service. Worked methodically through our list of problems with skill, neatness and efficiency, and cleaned up afterwards. What more could you ask for?!!
09-Mar-2020	The very highest level of good service.
23-Feb-2020	JPW came to me highly recommended by a friend and didn't disappoint. A 30 year old domestic re-wiring project required good problem solving skills and installation of SMART power socket to control heating from a phone. A full electrical inspection rendered a very comprehensive report which allowed me to understand the urgent and non urgent items to be addressed. JPW provided prompt and clear estimates and advised the stages of the project with start dates and times. I have been provided with a professional, trustworthy, neat, and very tidy service. Completely unobtrusive when working and patient when explaining the technology of the new system. I look forward to the next stage which I have requested to be in a few months time.
11-Feb-2020	Excellent work to a high standard. Efficient, tidy, and polite. Very satisfied with all aspects of work. Would highly recommend.
10-Feb-2020	Jon carried out fiddly rewiring jobs on two rental flats for us. He is reliable, explains and discusses options clearly, shows great consideration for the tenants and their property and tidies/makes good as he goes along. We would definitely use his services in the future.

06-Sep-2017	<p>I was really impressed with the work that was undertaken. Although it initially seemed quite a straightforward matter of rewiring some pendant light fittings after the ceilings had been replastered it turned out to be rather more complicated. I really appreciated the way in which Jon explained the problems that he was encountering and how he was going to tackle them. I thought that this underlined his excellent communication skills and courteous approach to customer care that had already been evidenced in his response to my initial 'phone enquiry. The work was carried out efficiently and neatly with minimum disruption. I will certainly use him in the future and would be happy to recommend him.</p>
