I was very concerned about the amount of black mould growing in my parents home. I searched online for a trading standards approved company who specializes in this type of treatment and was very glad to have found Mould Solutions. Communication was clear, easy and pleasant. Graham who performed the treatment was very efficient, professional, understanding and considerate to my parents age and disability. I would definitely use their services again and would highly recommend them to anyone else looking for a professional, reliable service.

08-Dec-2015	The tenants in the flat I rent had a big problem with mould. I live over 2hours away ,but Graham kept me informed at every stage of the process,as well as liaising with the tenants ,and communicating to them what they need to do in future to avoid the mould returning. I can not speak highly enough about the service he provided it was excellent,I would recommend him to anyone.
