Steve very efficiently installed my new computer and transferred data from the hard drive on my old computer. I was very anxious about the transfer of data as I had a large number of work related files and information which I was extremely worried about losing! Steve was very reassuring and to my great delight - ensured everything was transferred successfully. He also very kindly spent time showing me the new facilities available on my new computer and ensured I could access all my files quickly and easily. I received excellent service from Steve and I am very happy to recommend him.

An excellent service. Very prompt reply to enquiry. Very polite, friendly and helpful. Totally restored my confidence in trusting someone to help with my computer. Will now never go any where else and will recommend their services to friends. 18 miles can never be to far to go to receive such a good quality service.
