From start to finish, everyone from Star Surfacing have been highly professional, courteous, friendly and hard working. My front garden was small and I didn't think a driveway would be possible but I was assured by George, the company owner, that it could be done, and the finished driveway has exceeded all expectations! It has enhanced the look of my property as well as give me guaranteed parking space. I can highly recommend Star Surfacing for your driveway.

18-Nov-2014	We had a new drive laid in resin bound stone. The original drive was gravel over much damaged tarmac. Star surfacing first removed the gravel, repaired and evened out the existing tarmac as a base for the new surface. They carried out the work efficiently and to our convenience. Very pleased with the results.
14-Nov-2014	Our house has two driveways and two footpaths. Star Surfacing prepared the entire area, paying careful attention to slope, installed both stone and aluminium strip edging where appropriate and laid their resin bonded surface to give a uniform finish throughout. Our overall requirements were fully discussed before the work began and strictly adhered to. The whole process was carried out tidily with minimum disruption and maximum cheerfulness. We are delighted with the results and our new look driveways are much admired by all who visit and many who pass by! Highly recommend.
