09-Oct-2018	Poor quality work, incomplete job done, refusal to answer emails, took twice estimated time. Response from Table Doctor: Not poor quality work, I did what was the customer agreed in the written quote and a deposit was paid. I have photos of the before and the completed project, which were sent to the customer during the work and was accepted and paid for on August 25th. Time frame was longer than estimated due to the nature of the project which was given verbally, not in the quote. As usual, I communicated on progress with Email and texts. Finally, I have had no communication since the delivery back on 25th August.
