Used several times for electrical works, lighting and TV aerial and satellite. Very happy with level of service and advice given. Will be using again for our house extension. Highly recommend this local business.

Nigel was excellent, setting up 2 new TVs, my WiFi and Sonos with Sky set-up. Would highly recommend and I wouldn't go anywhere else.

Have used Tectonic for changing our aerial system over and making our Sky work in all bedrooms via RF2 connection all works perfectly. Recently had a dangerous light fitting that started to burn through the plate of the fitting Tectonic came within 20 mins of being notified and replaced it with a pedant fitting and checked the other lights. Highly recommend
