Completely professional service from the time we first visited the showroom ( without an appointment ) through to the installation of a new patio door. Adam, the sales manager was extremely knowledgeable and able to answer all our questions. He also gave us very helpful advice when he visited our property to provide a quote. Kevin, the surveyor, was very thorough with his detailed measurements and Tom and his installation team ( Tom & Ben ) did a fantastic job. They were timely, efficient, and very pleasant and tidied up the small amount of mess they made to such an extent you wouldn't have known they had been. Our overall expectations were exceeded from beginning to end, and the cost was very competitive. We would highly recommend this company--one of the best we have dealt with !

By far the best price for excellent windows and doors. Adam came to measure and dealt with all questions, no giving ridiculously high prices then working back nor did he pressurise us, simply explained what we'd need and priced accordingly. Dave and his team were fantastic, they worked really hard, laid sheets down every day and cleared up every night before leaving. Nothing was too much trouble, they kept us informed of order of installation and what to expect, working quietly around a 10 month old baby! Cannot recommend them enough.

25-Nov-2021	Close friends recommended Thermaseal as their own garden room had been completed to a very high standard. We were impressed with what had been done and we experienced a similar experience with personable, professional, pragmatic and helpful staff from start to finish. Suggestions and recommendations were clearly communicated both ways, and the end result has delighted us. Despite the Covid situation impacting on the timescales for completion of the overall project, potential delays and problems have been fully explained and minimised.

I phoned the company, was asked to supply photos and this was followed up with a visit to check the next day. The problem was corrected that day and in a courteous manner. We are now very pleased with the installation and are at last draught free</p>
